

Assembly Instructions For

LT1170 (E) 1/08

READ ALL INSTRUCTIONS BEFORE ASSEMBLING LAMP

Unpack lamp parts onto carpeted surface or blanket. Be sure to place parts in a line that closely resembles assembled lamp. All wires are connected when unpacking. Be careful handling wires during assembly.

1. Place glass shade onto Lamp Body (over socket) by fastening counter ring and washer onto threaded socket.
2. Install a Type A, 150 Watt Max. 3-Way Medium Base Bulb (not included) into Socket as noted on relamping label at Socket area.

IMPORTANT SAFETY INSTRUCTIONS:

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.
