The background of the entire page is a photograph of several modern outdoor chandeliers. These fixtures are constructed from dark metal frames with horizontal wooden slats. They are adorned with multiple warm-toned, Edison-style light bulbs that are illuminated, casting a soft glow. The chandeliers are suspended in an outdoor setting, with a wooden pergola structure visible above and a dense canopy of green trees in the background. The overall atmosphere is warm and inviting, suggesting a sophisticated outdoor living space.

OUTDOOR LIVING AND THE LIGHTING IS EASY

Upscale living spaces are no longer confined to the indoors and as the outdoor living trend grows, so do your options for outdoor lighting. We're not saying to throw away the string lights or tiki torches, but Quoizel's new outdoor chandelier collection, Carlisle, is a beautiful way to brighten up your backyard.

KEEP CALM WITH THE LIGHTS ON

As technology becomes a part of our every minute and the balance between work and home begins to lose its footing, many are looking for a calming retreat. Outdoor living spaces provide sanctuary to everyday stresses and decorative lighting is an easy and elegant way to “spark joy” as Marie Kondo would advise, while finding the proper balance.

AL FRESCO ILLUMINATED

If you've discovered the joys of feasting al fresco, Quoizel is here to "kick it up a notch." Deck out your outdoor dining area with the versatile Carlisle Outdoor Collection. The Carlisle Island Chandelier is a bright spot during an afternoon snack or a mood-maker at the next neighborhood dinner party, the possibilities are endless and Quoizel will keep them illuminated.

CARLISLE

Illuminate your outdoor living space with the Carlisle collection. The whitewash treatment of the painted wood frame complements the deep rustic tone of the Grey Ash finish, creating a rustic, farmhouse style fixture. Seeded glass shades protect the light source while also providing a soft, warm glow.
