

ASSEMBLY AND INSTALLATION

INSTRUCTION

Please read carefully and save this instruction, as you may need them at a later date.

CAUTION

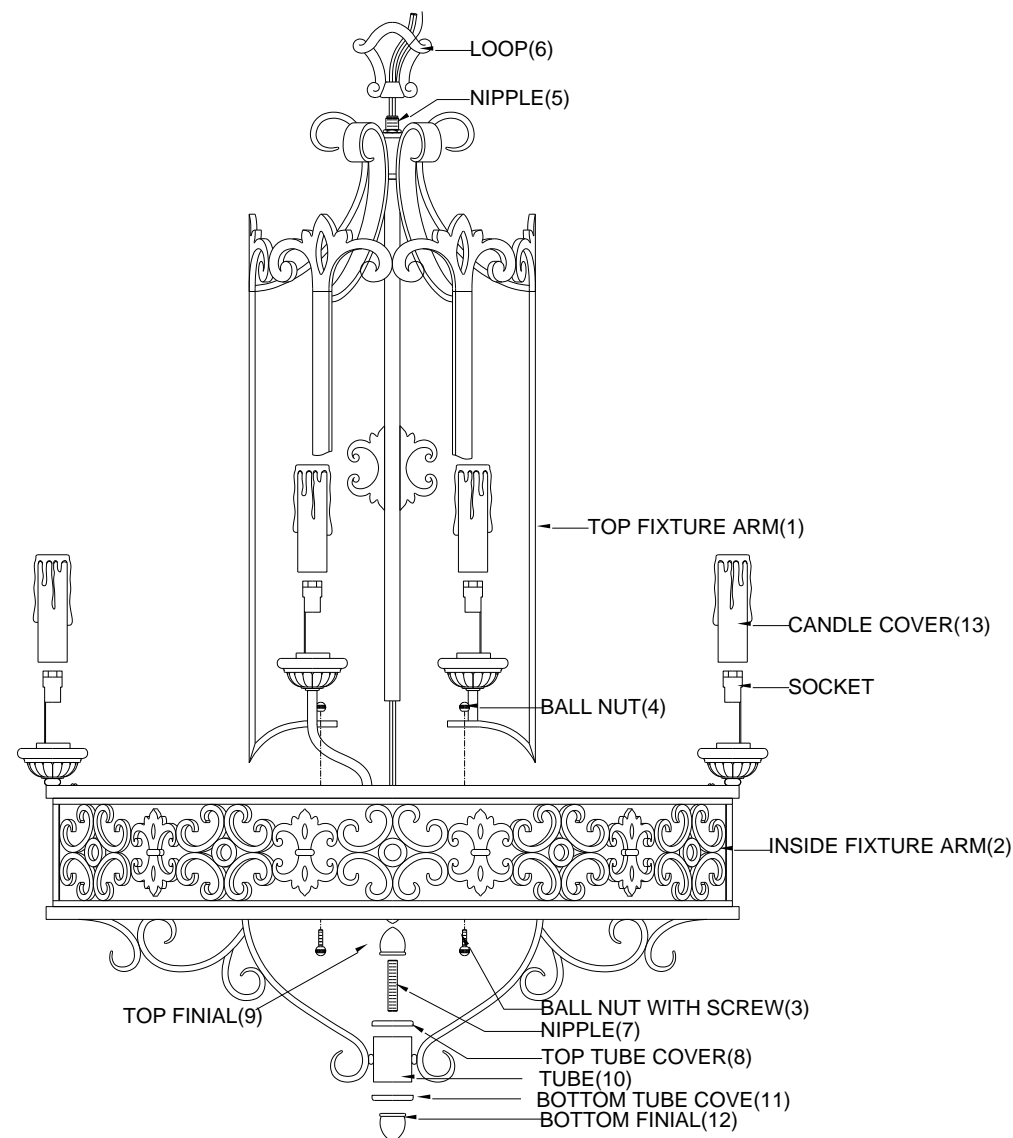

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock. If you are unfamiliar with proper electrical wiring connections, please consult of a qualified electrician before installing

Installing Step:

Remove the fixture and the mounting package from the box and make sure that no parts missing in the box.

1. Put Top fixture arms (1) to the Inside fixture arms (2), then use the Ball nut with screw (3) and Ball nut (4) to screw them together.
2. Use the Nipple (7) through the Tube (10), attach the Top Tube cover (8) and screw the Top Finial (9) onto the Nipple (7).
3. Attach the Bottom tube cover (11) and screw the Bottom finial (12) onto the Nipple (7).
4. Insert the Socket sleeve (13) onto the socket.
5. Install bulbs: (Bulbs not including in the package)
(Please don't exceed the maximum capacity that recommended on the Sockets)

INSTALLATION IS NOW COMPLETED.

1-506-9-128

Notes: Please catch the arms of the fixture by hands to take the bottom parts out of the foam, do not catch the frame. See the images as below.
