

SYNCHRONICITY™

by Subhardton Forge.

Synchronicity™ by Hubbardton Forge is the modern retelling of an ancient tale. It is a story offering a glimpse of beauty and artistry that breaks out beyond the confines of time. Every aspect has been considered, with nothing overlooked. The bend and curve of forged steel to the shape of the crystals and the texture and hue of the artisanal glass were all chosen to enhance the designs. Hand-forged metal delicately embraces exquisite crystal. Hand-made glass provides texture and a visual treat.

Each element builds to a crescendo of design and craft excellence. This is Synchronicity™ by Hubbardton Forge. The “meaningful coincidence” that defines synchronicity coalesces in a new experience. With Synchronicity™, the sculptural heritage of the Forge, built on a history spanning more than four decades, has been broadened. We have brought new life to the sparkle of precision-cut Swarovski Strass crystals and artisanal glass.

A NEW WORLD OF LUXURY LIGHTING AWAITS.

SYNCHRONICITY
by Hubbardton Forge

GATSBY

Hand-cut and polished crystals adorn this magnum opus of luxury lighting. Avant-garde design pairs with a penchant for being the center of attention; the Gatsby lives up to its namesake with opulence and a larger than life presence.

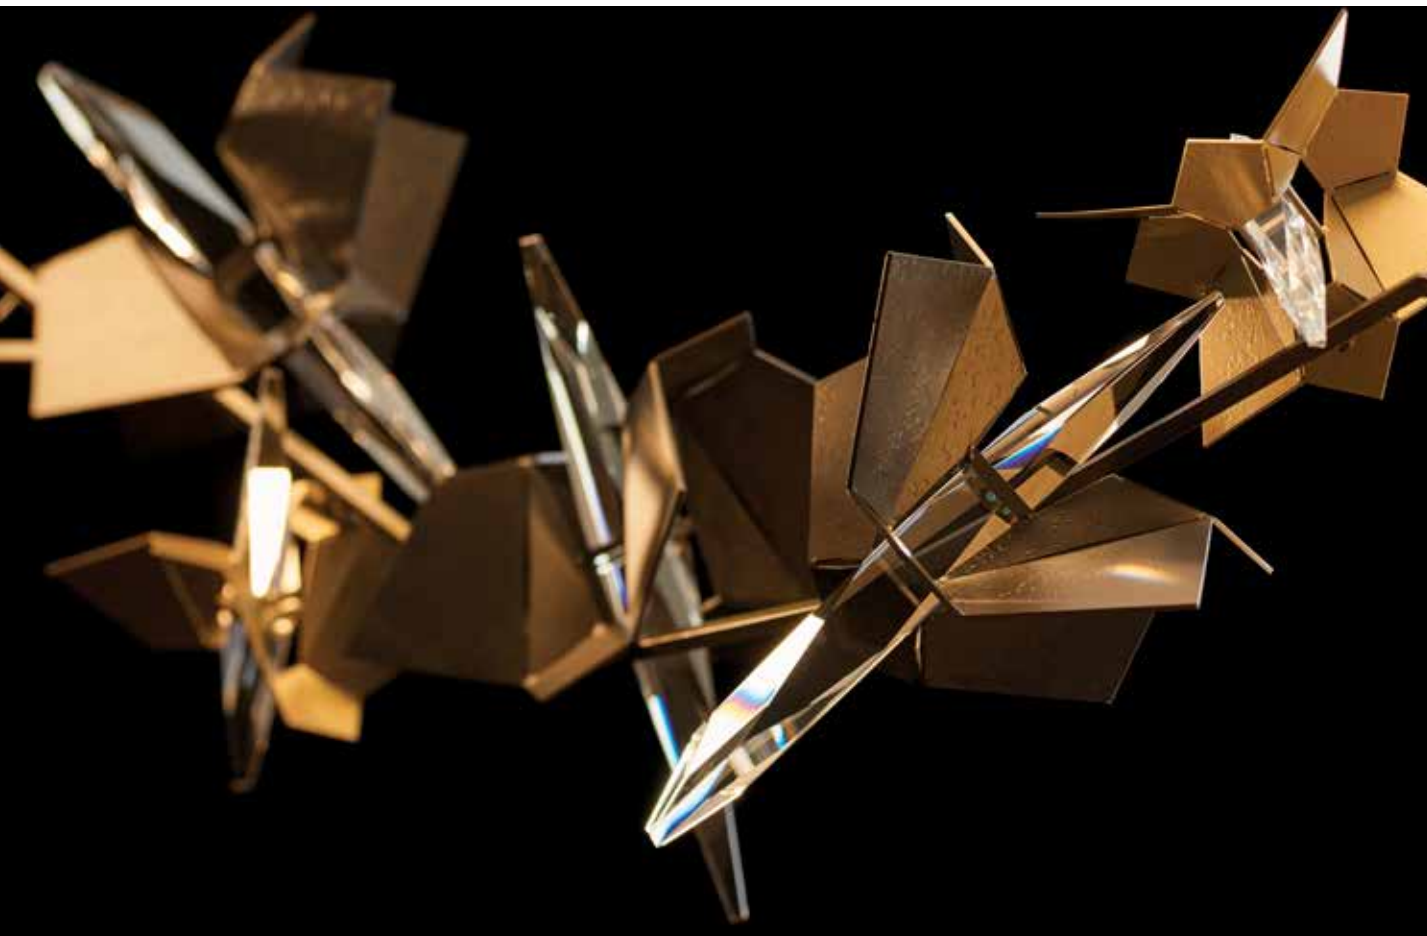

Gatsby Chandelier 105020

LUMA

A thick lustrous jewel of faceted crystal encases the light source within it. The Luma mini pendant is eye-catching opulence that offers a sophisticated beauty even when unlit.

Luma Mini Pendant 161321

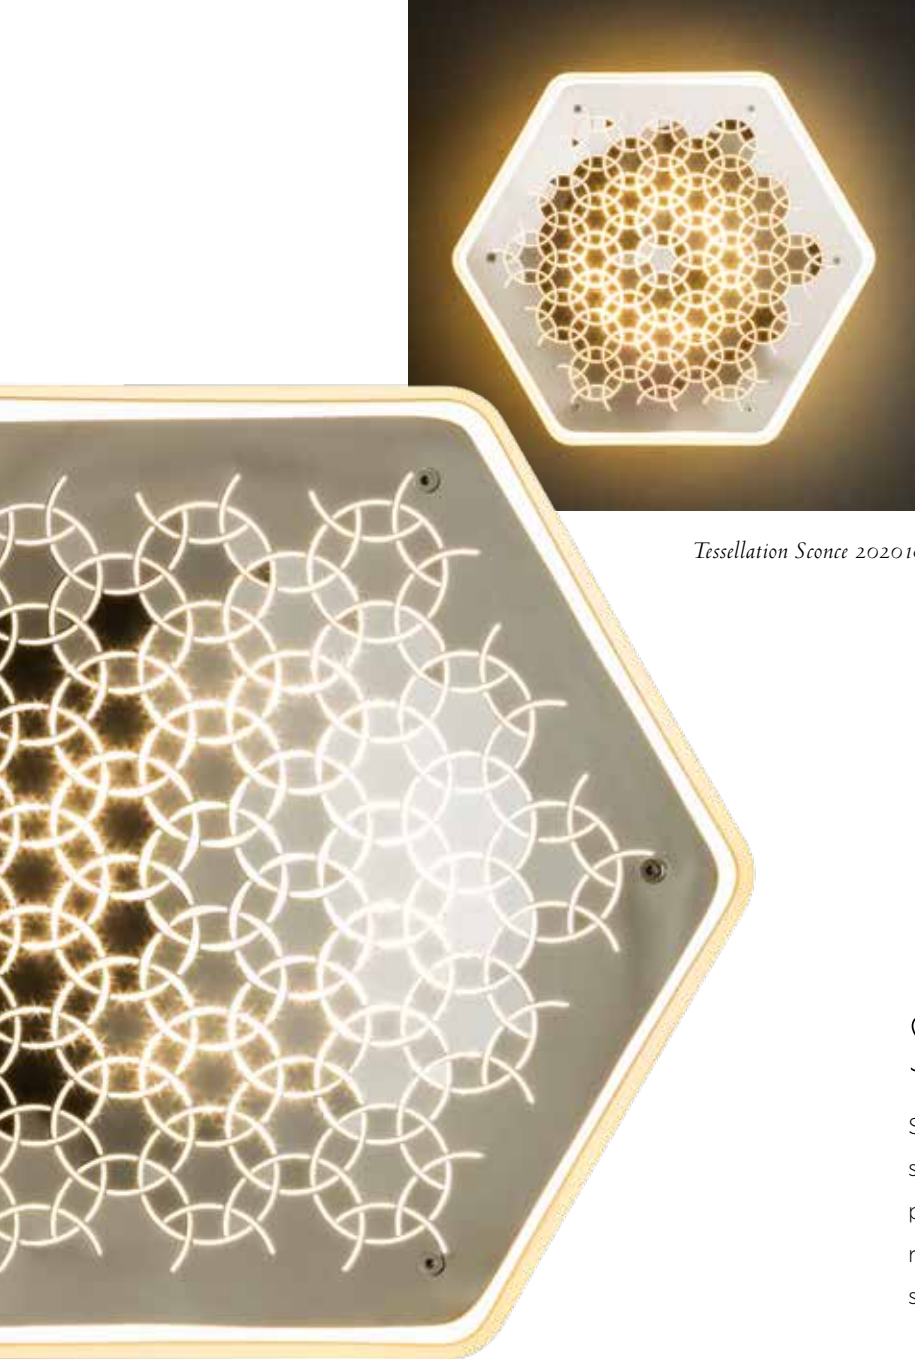

BELLADONNA

“Beautiful Lady” or deadly nightshade? Both describe our dramatically-lit branch of steel and crystal flowers. The three smaller florets come in your choice of nine accent colors.

Belladonna Pendant 139813

Tessellation Sconce 202018

STITCH

Seductively complex in nature, the Stitch weaves shimmering Swarovski crystals between two forged plates of steel. Laced together by the tenuous relationship between light and shadow, this alluring sconce creates a bold statement.

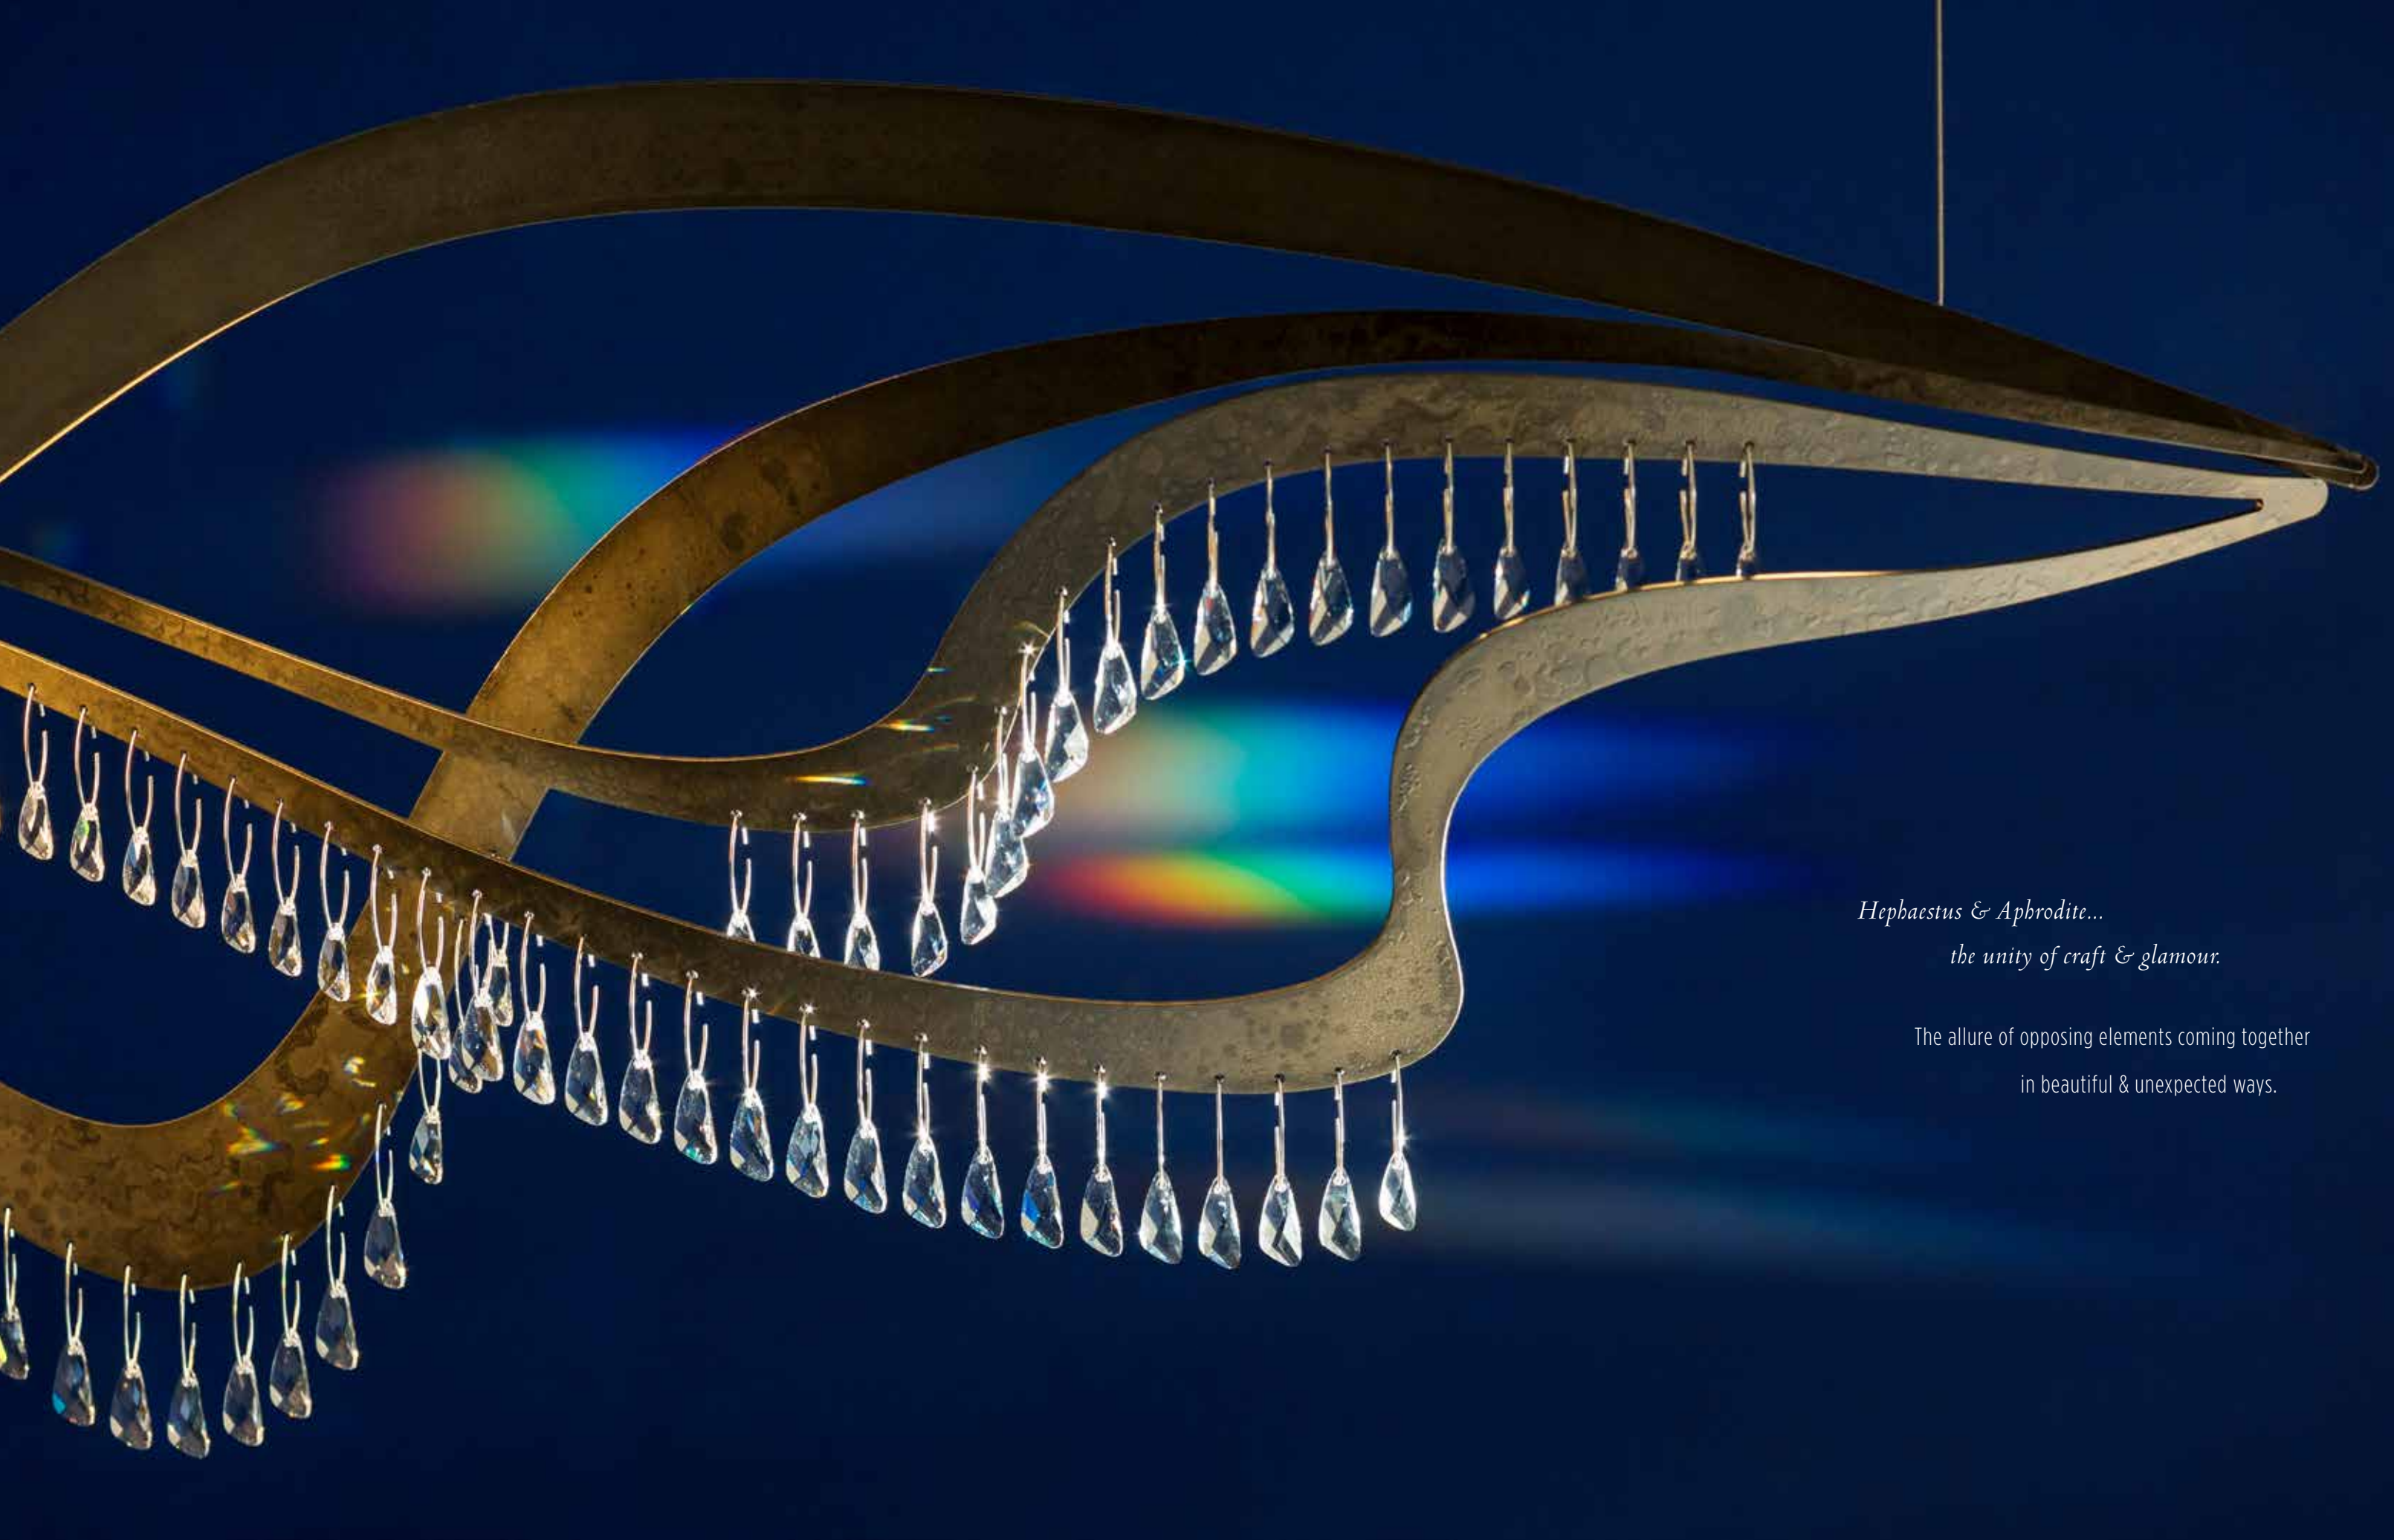

TESSELLATION

“Mathematics rightly viewed, possesses not only truth, but supreme beauty”- BERTRAND RUSSELL

Never has mathematics produced a more beautiful view than the Tessellation sconce. A sleek and polished concave plane of geometric patterns emits a glistening water effect, while diffused peripheral light softly glows from all sides of the fixture.

Stitch Sconce 202101

Hephaestus & Aphrodite...
the unity of craft & glamour.

The allure of opposing elements coming together
in beautiful & unexpected ways.

Aurora Pendant 139869

AURORA

Ethereal ribbons of intertwined steel are adorned with delicate Swarovski crystals to create a romantically stunning focal point. The Aurora chandelier embodies the harmony between craft and enchantment—a design vision that becomes reality from the union of forge and jeweler.

Courbé Pendant 139797

COURBÉ

Steel transcends its material limits with flowing tendrils carefully crafted to embrace the curves of this exclusive Swarovski Strass Wave Cut crystal design. A gently arched LED hidden within plates of steel illuminates the Courbé's sculptural elements.

Courbé Sconce 202010

NOVA

Conspicuous steel angles and gem-like sparkle exemplify the Nova's modern haute couture design. Beams of light are channeled both upward and downward before reaching their apex — a gorgeous Swarovski Kaputt crystal designed by Jean Paul Gaultier.

Nova Pendant 137740

Hendrix Pendant 139863

Hendrix Sconce 203305

HENDRIX

Experience the brilliance of Swarovski crystals as they reverberate and shimmer within rhythmic steel forms. Transcending the limits of ordinary organic structure, the Hendrix represents the height of craft and emboldened artistry.

Solitude Pendant Small 139734

SOLITUDE

A floating island of angular crystal towers provides the visual aesthetics for these distinctive designs. Each crystal rises from an LED light guide and pierces through to emerge below, reflecting and refracting light in a vibrant sparkle.

Solitude Sconce 207918

Solitude Pendant 139738

Trove Pendant 139860

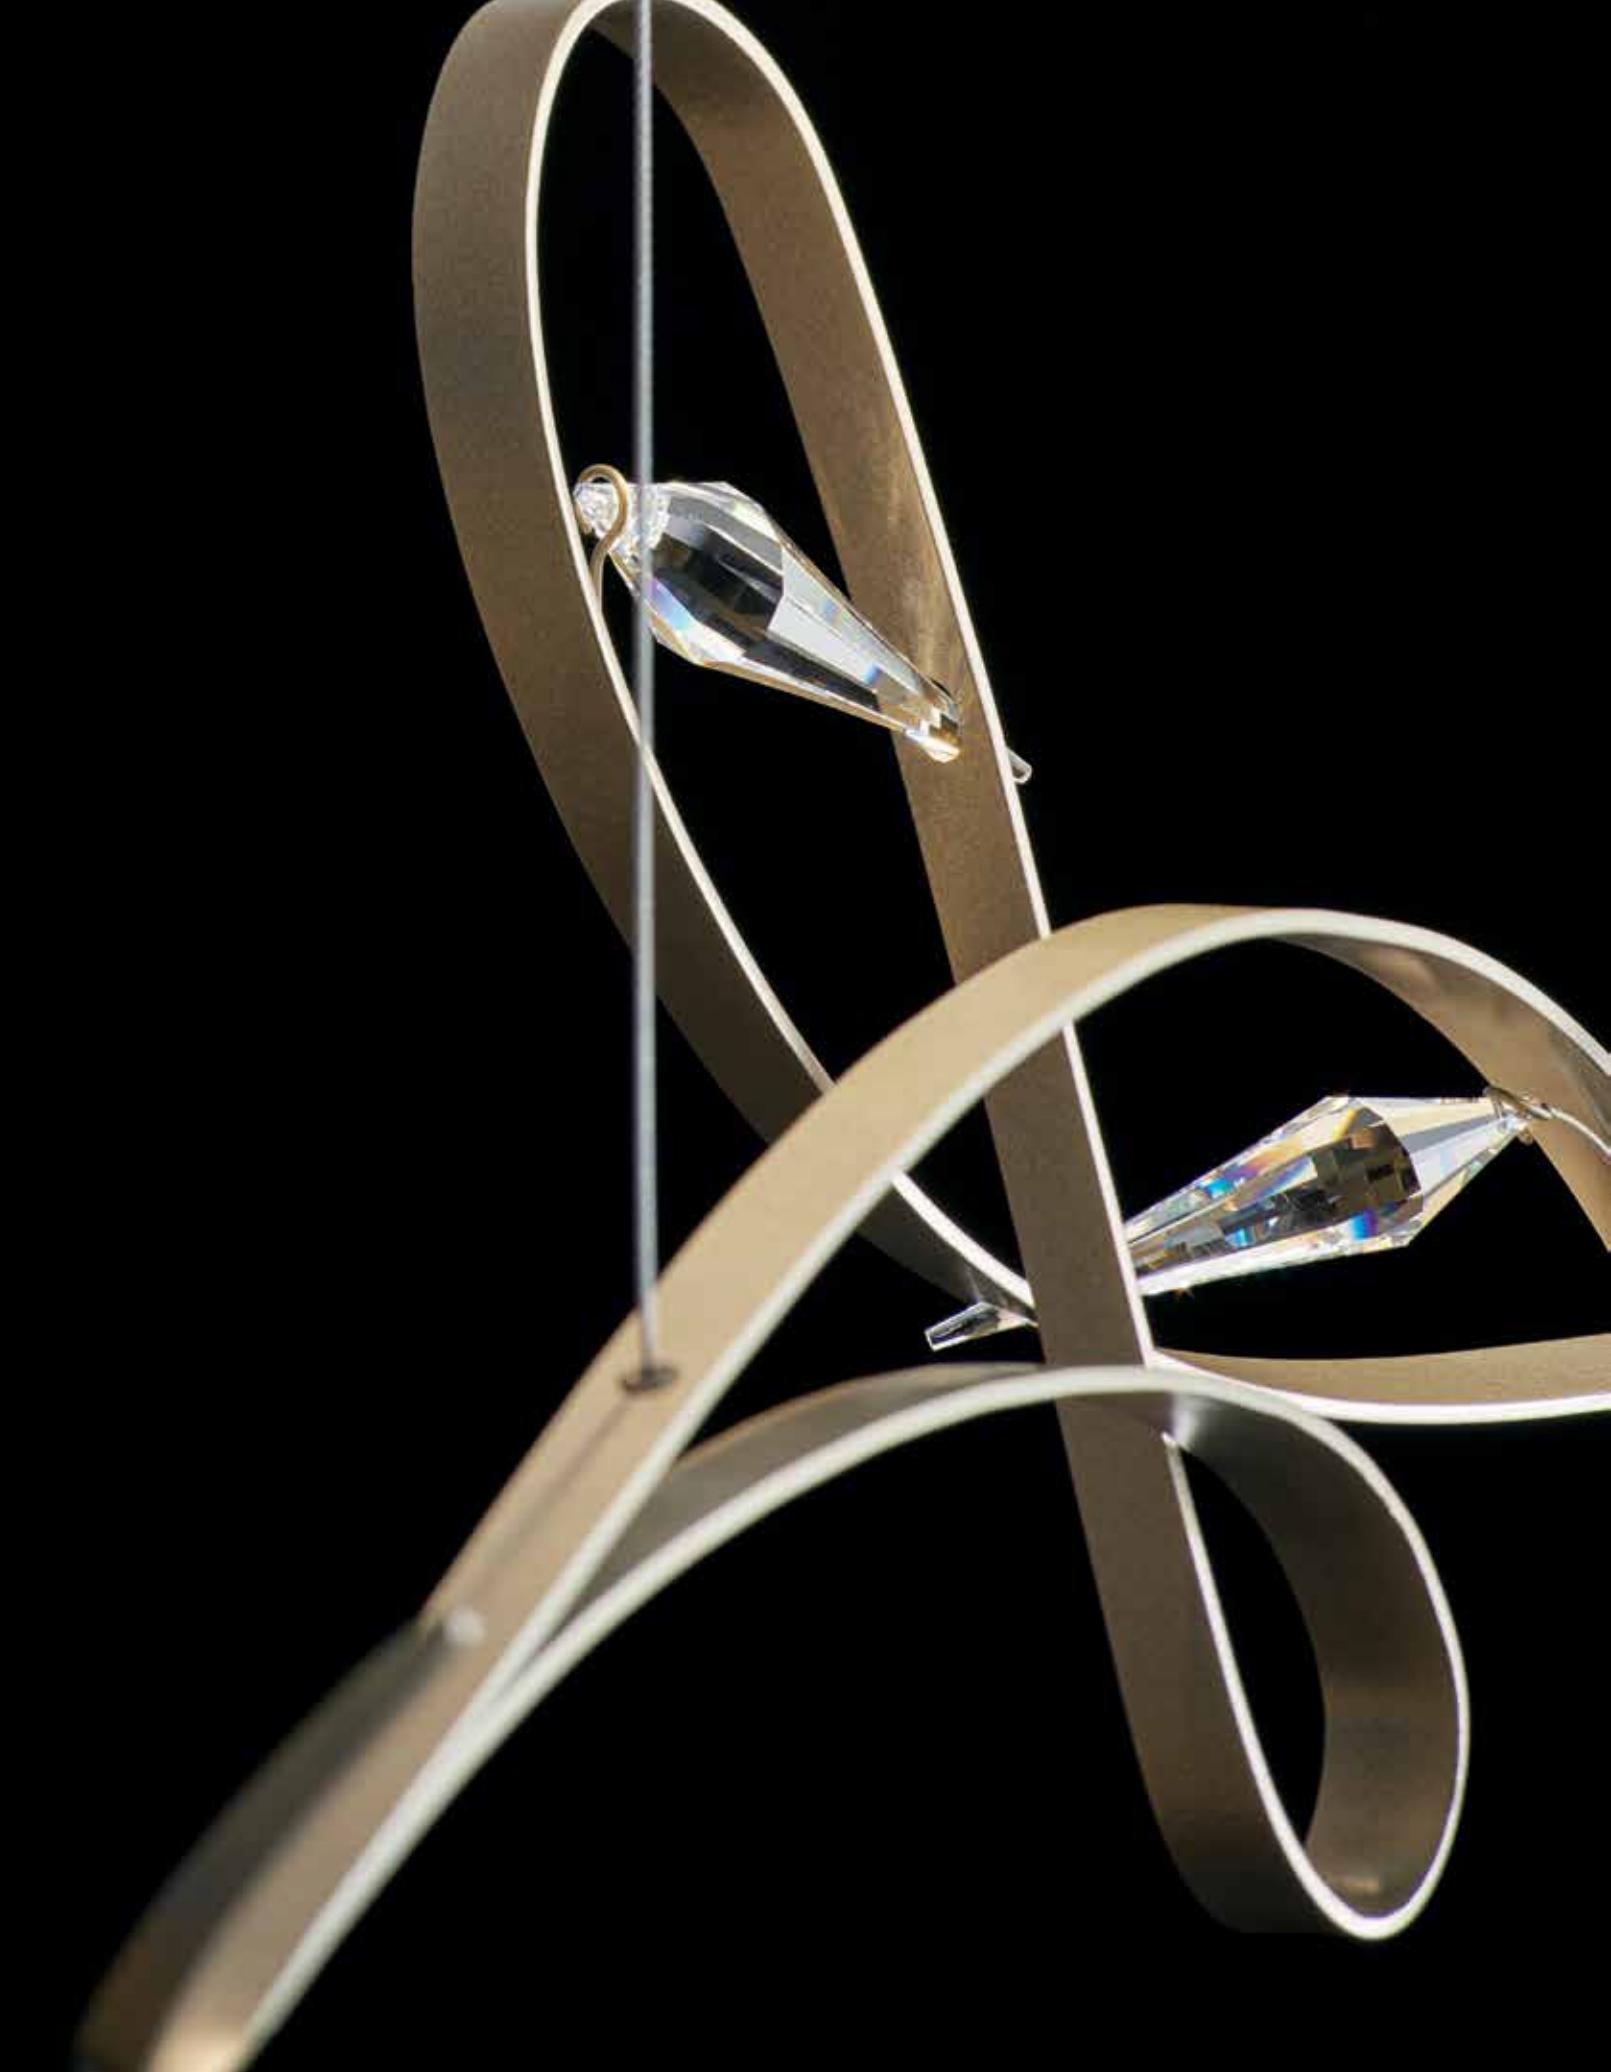

TROVE

Visually rich and dramatic, the Trove pendant interchanges points of jeweled light and planes of textured steel. Inspired by crystal in raw form, the featured Glaciarium crystal was created by Fredrikson Stallard for Swarovski.

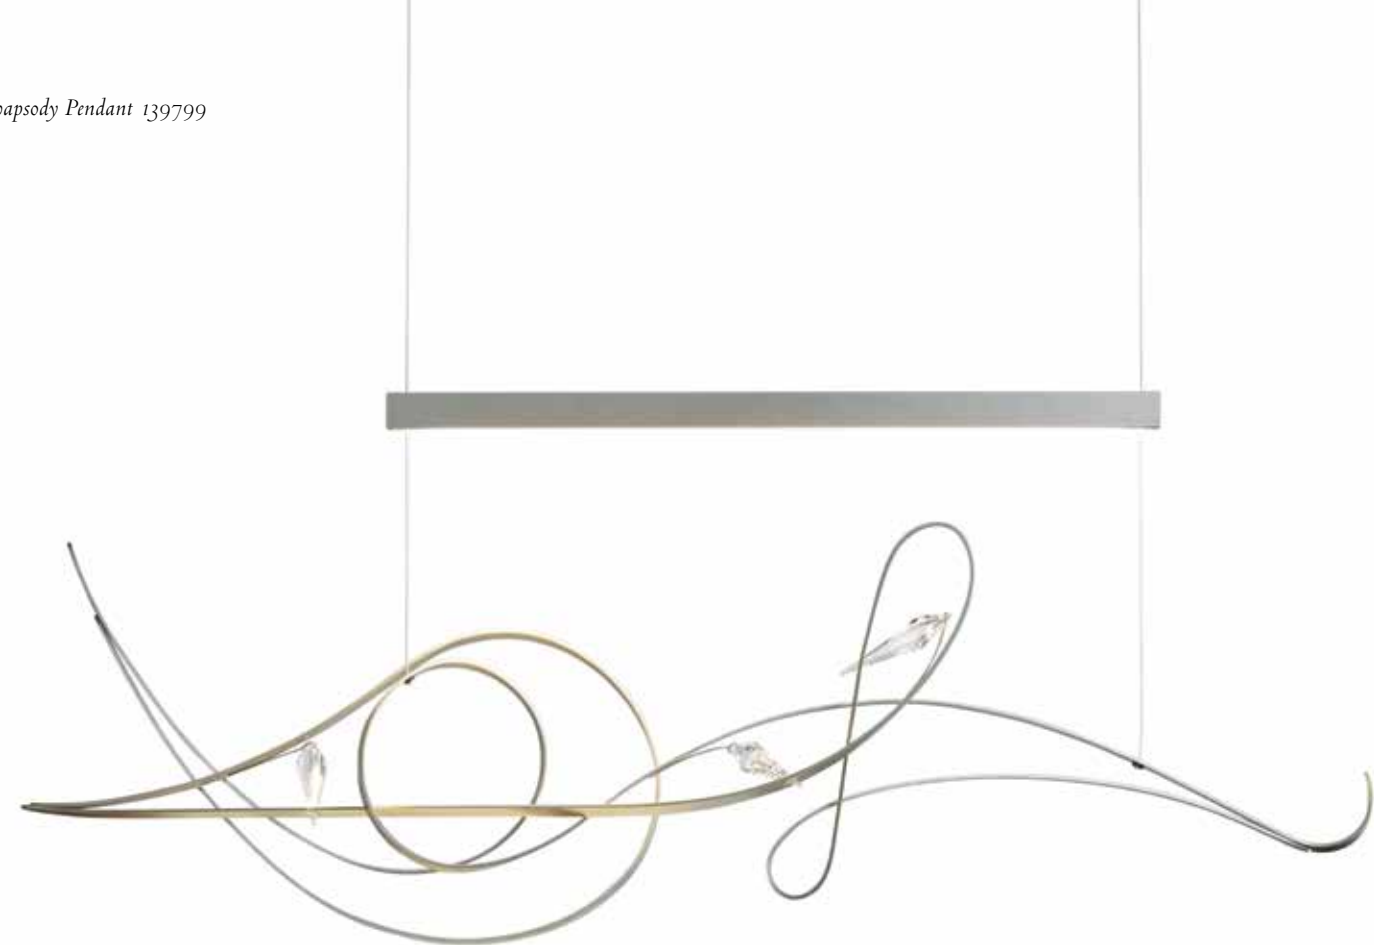

Trove Sconce 202015

Rhapsody Pendant 139799

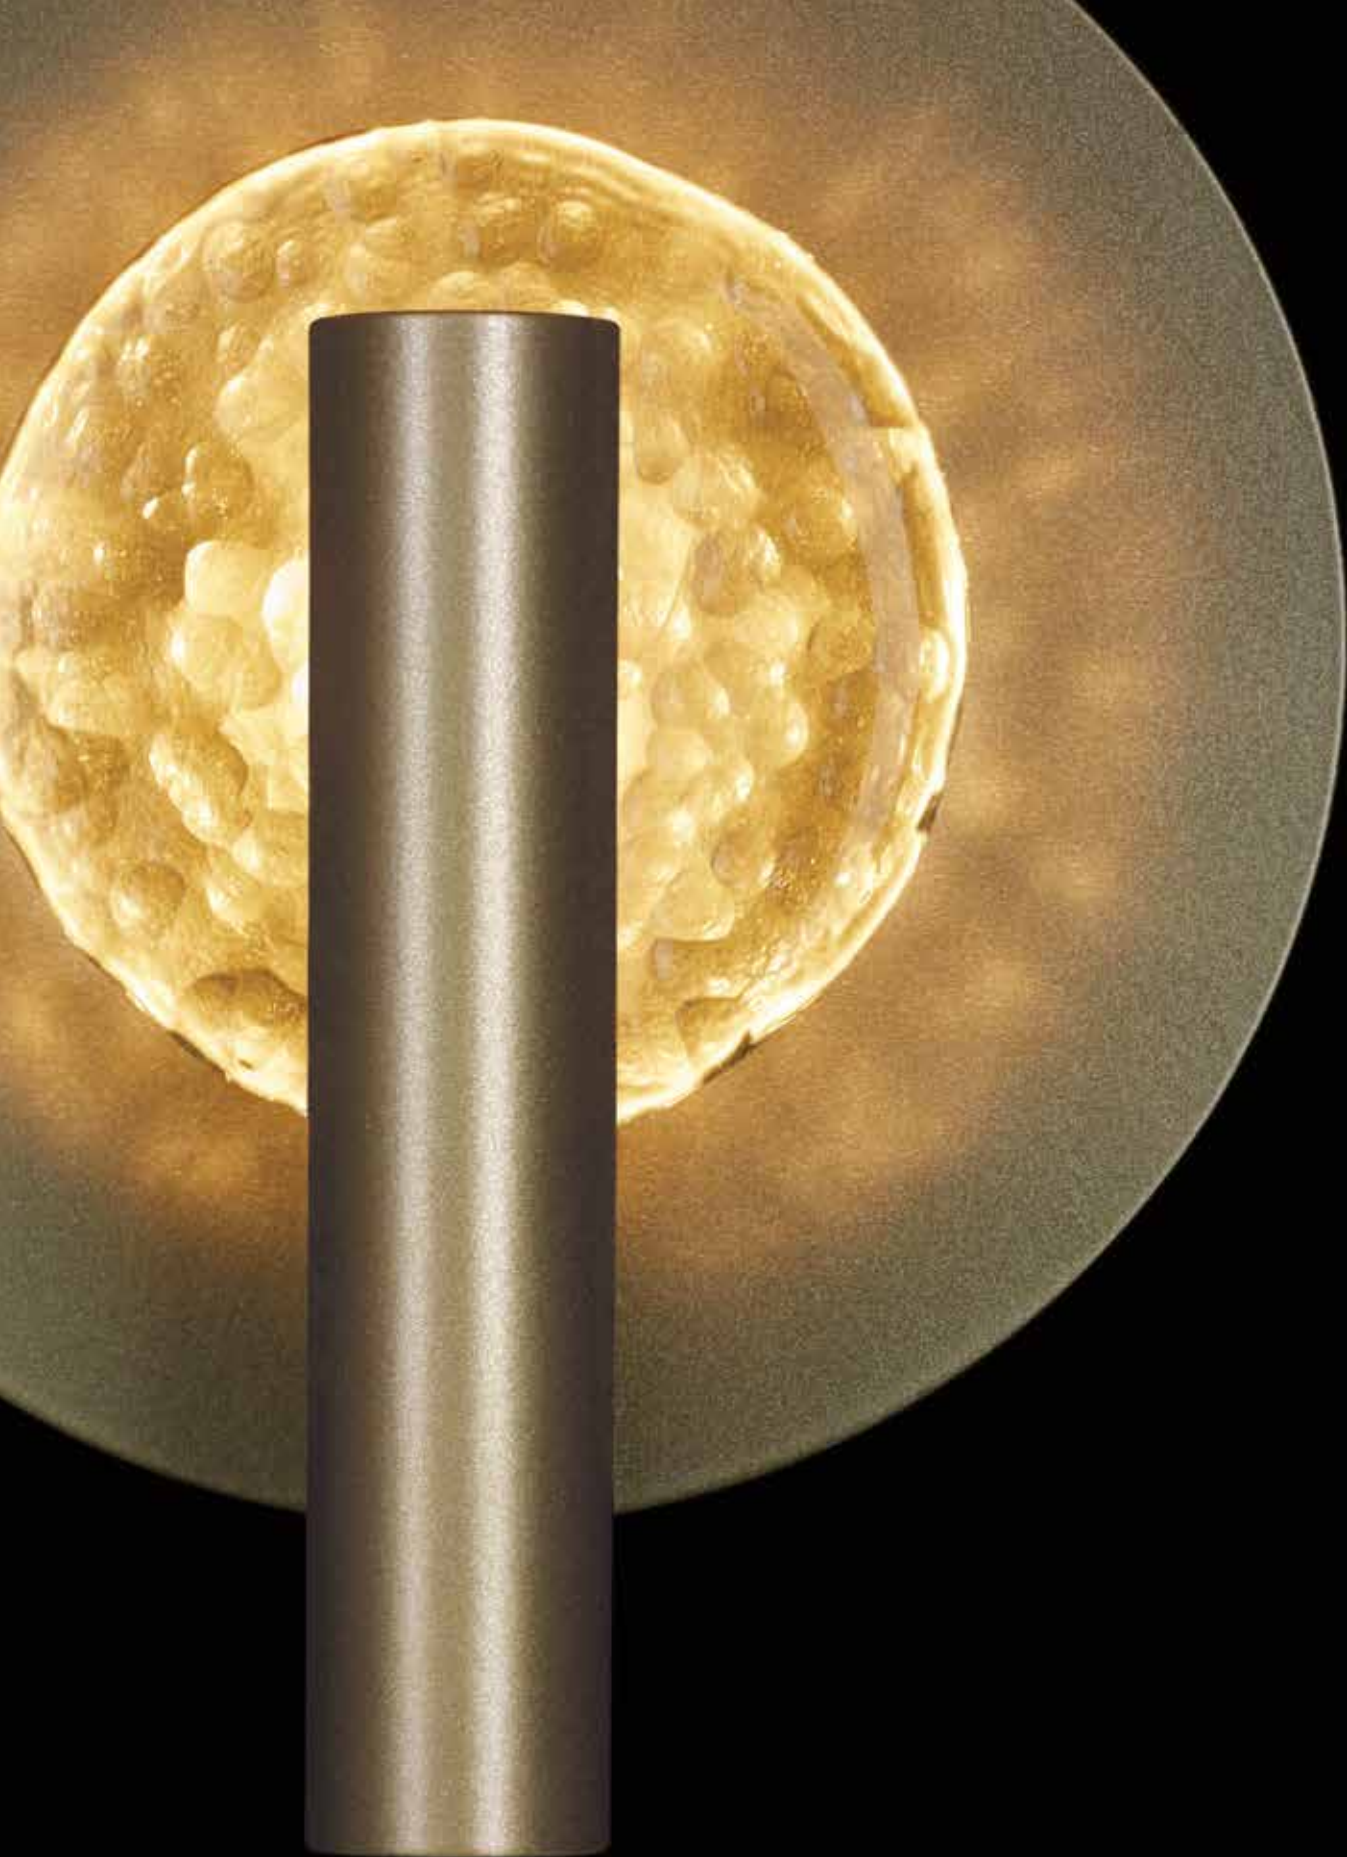

RHAPSODY

Design inspiration and intricate craftsmanship create this visual symphony. Flowing ribbons of steel are pierced by cone-shaped Swarovski Strass crystals, creating this divinely paradoxical composition.

Rhapsody Sconce 205440

Solstice Sconce 202025

Solstice Tiered Pendant 139782

SOLSTICE

The beauty is in the details. A graceful surround of art glass entices you to contemplate the romance and mystery of this pendant. Each of the textured glass panels is unique — handmade by Vermont-based glass artisans. On the accompanying sconce, a metal surround focuses the light toward a coordinating artisanal glass disc to create a unique glowing aura of light.

Artemis Pendant 139788

ARTEMIS

Elegance with an edge — bold sculptural quills of forged steel with tines grasping Swarovski Boomerang crystals create this distinctive and powerful pendant.

Artemis Pendant Large 139789

ARIA

A crown of metal surrounds an inner ring lined with a dazzling Swarovski crystal fabric. Petite crystals sparkle as the light dances over them. The LED light guide provides up- and down-lighting from this beautifully crafted circlet.

Aria Pendant Large 139786

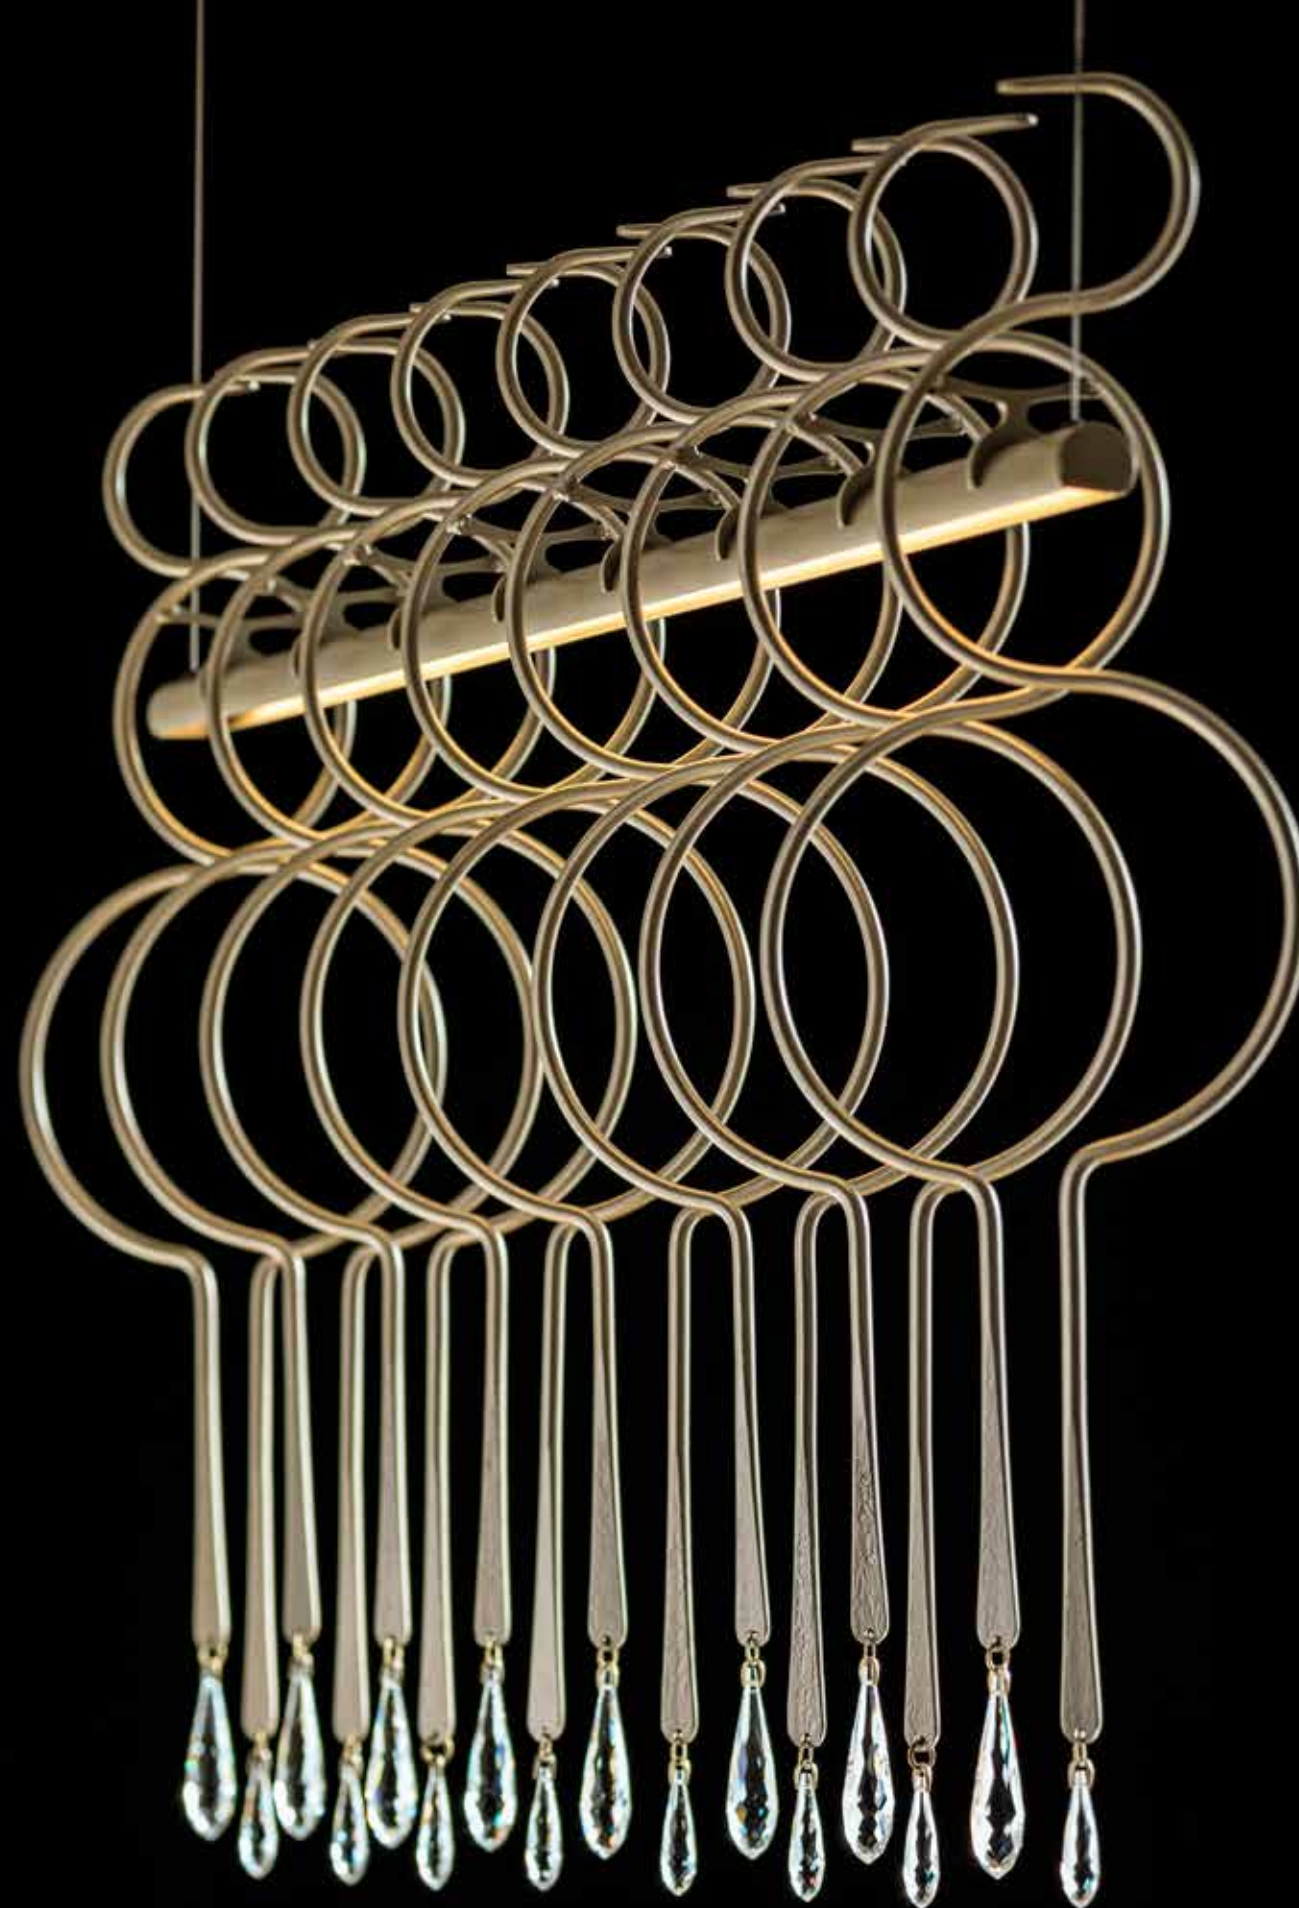

Aria Pendant 139784

ARABESQUE

Elegant figures in an ever-changing sinuous pattern, invites the viewer to a flourish of compositions. Droplets of precision-cut crystal bring an additional element of fanciful light play, as a slender bar of light illuminates from above.

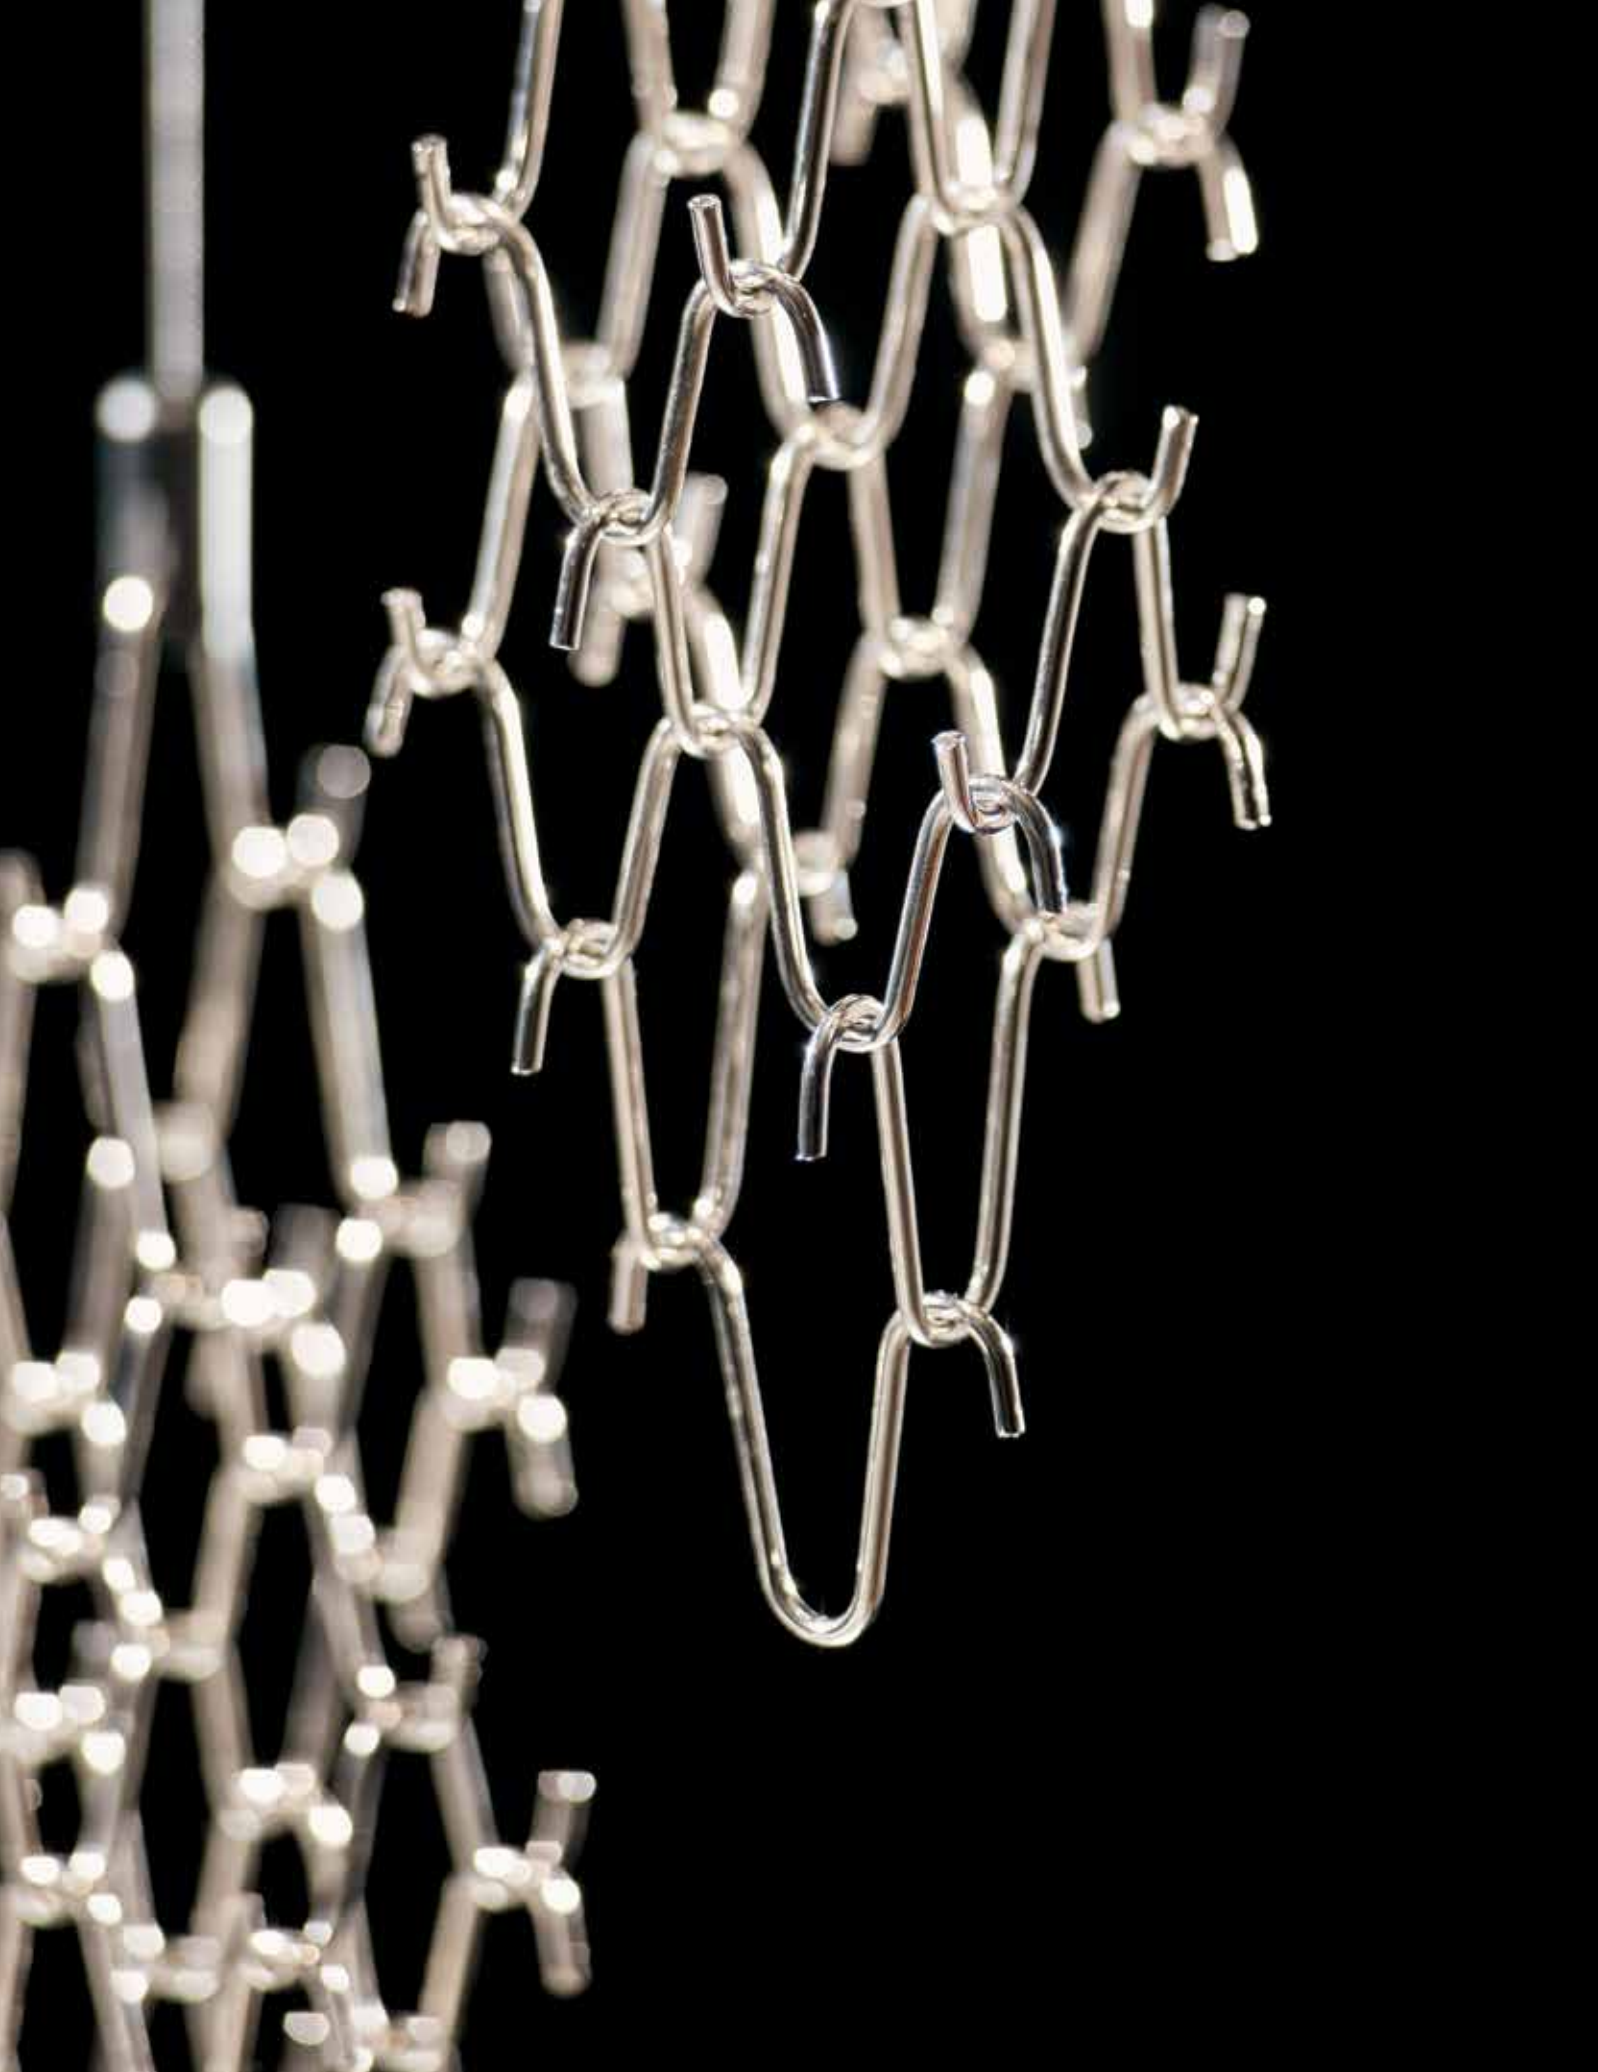

GAIA

A mystical world of handcrafted steel vines entwine glistening drops of oval pear-shaped Swarovski Strass crystals. The Gaia is illuminated from above by a single, stem-hung pendant.

Gaia Pendant 139827

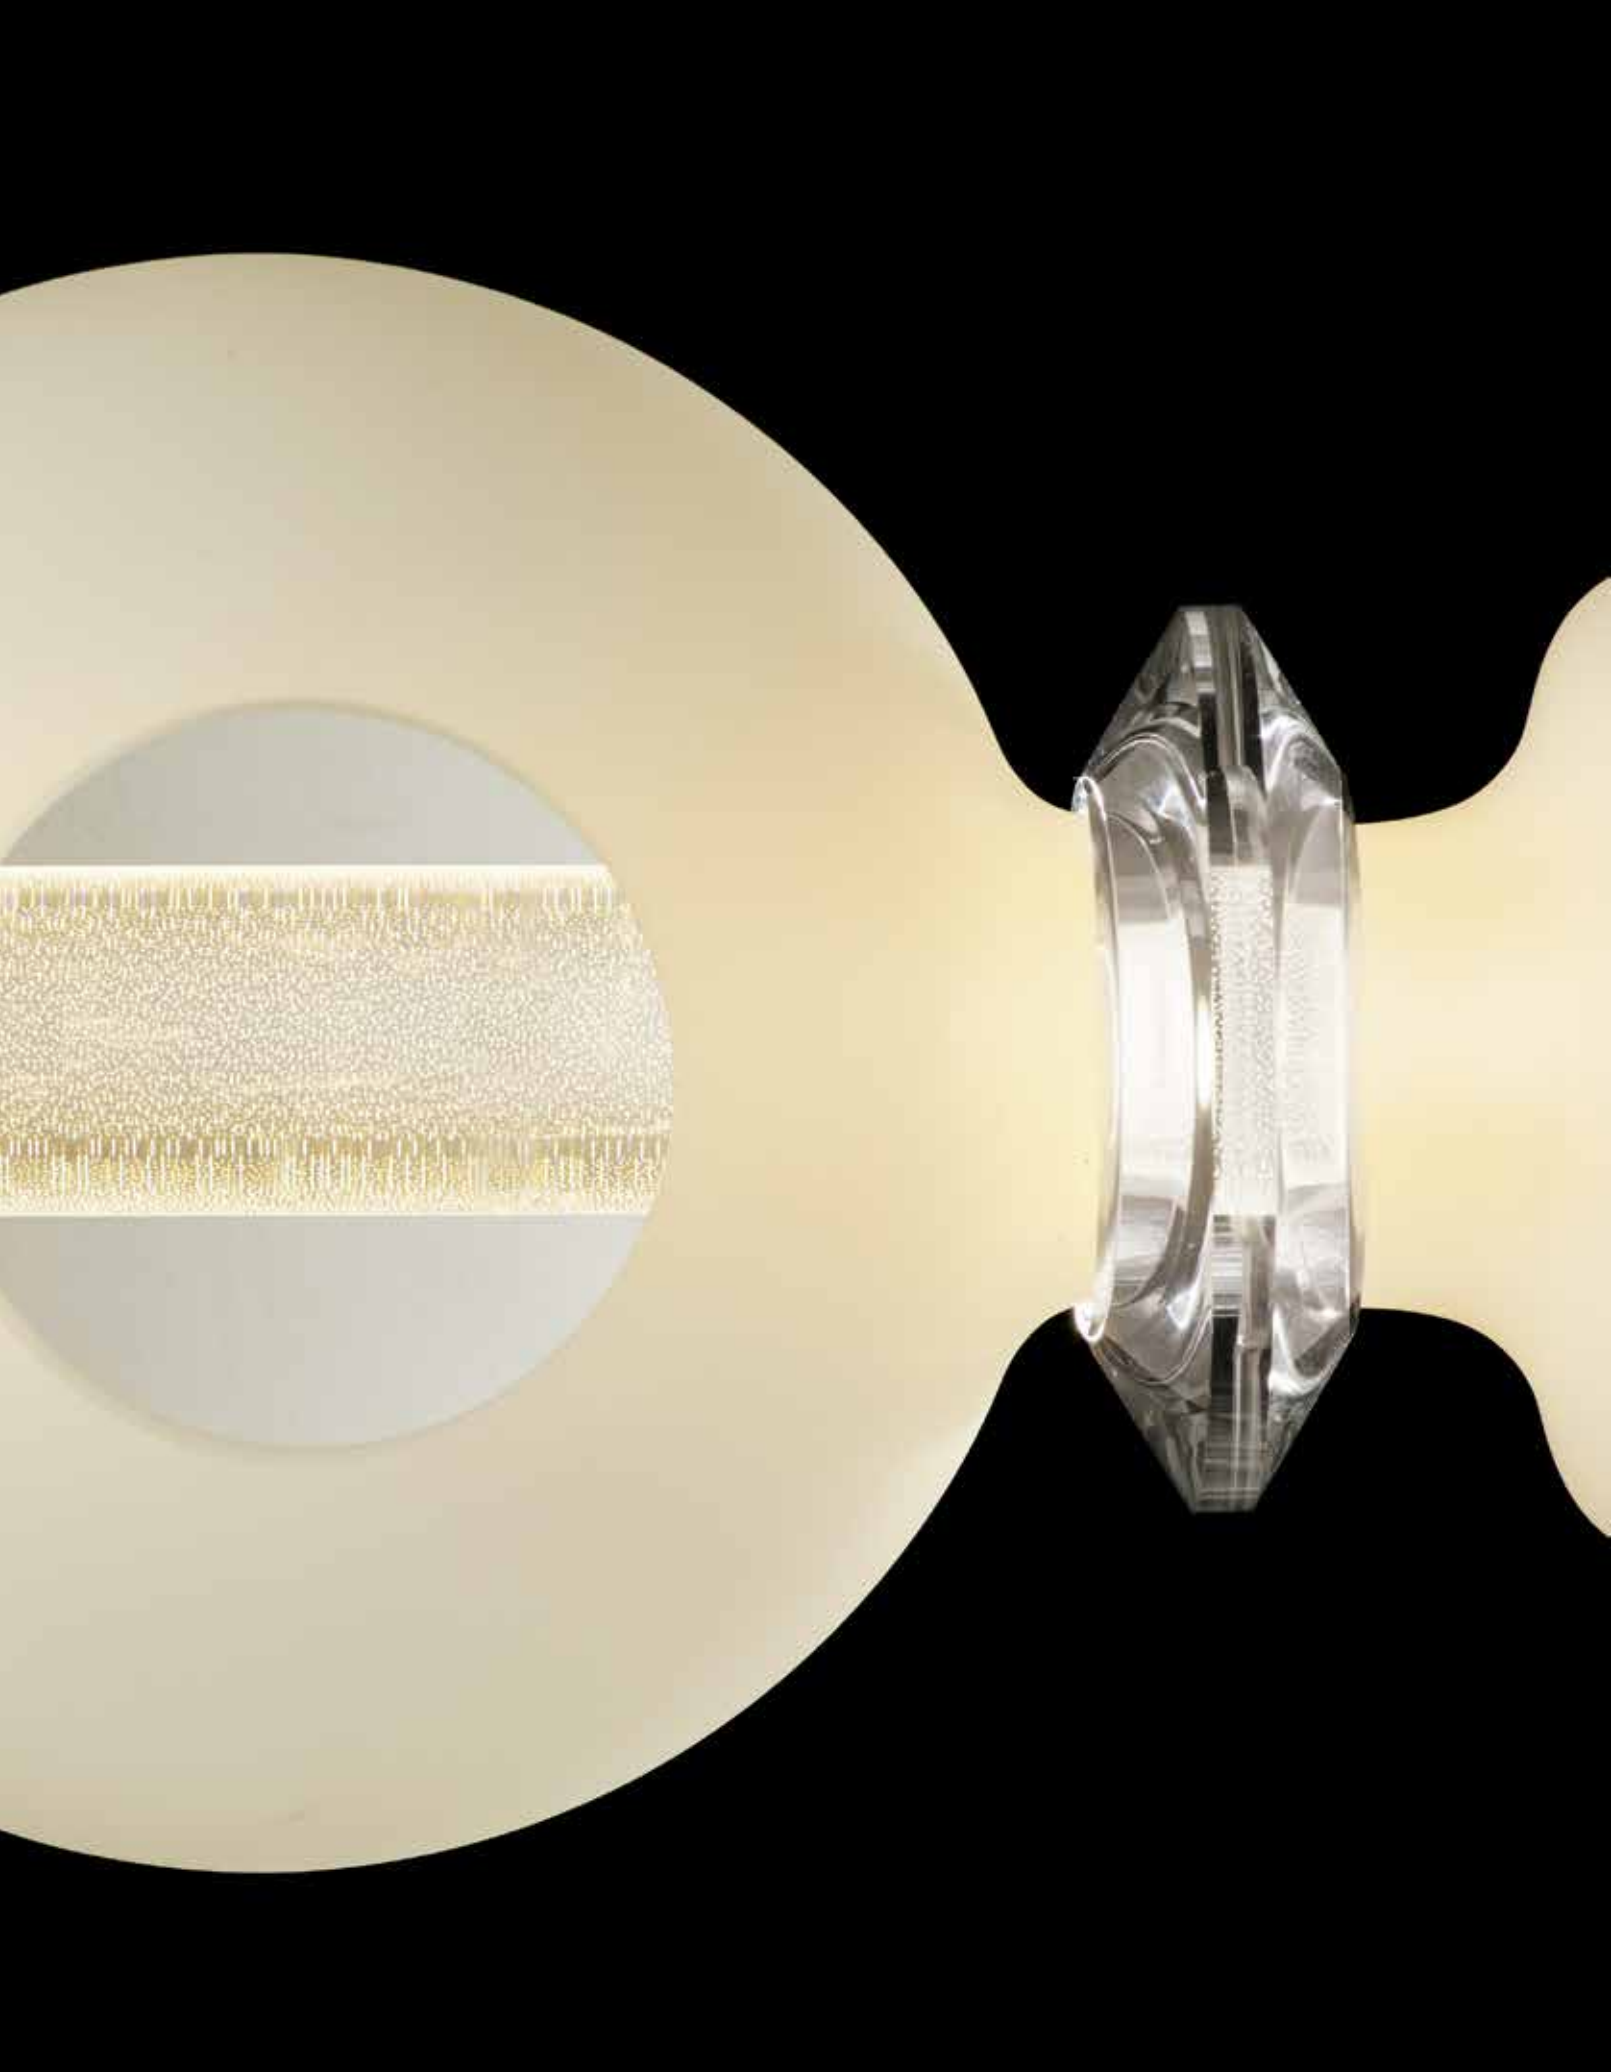

MARRAKESH

With a delicate, arabesque-like pattern, the Marrakesh blends modern and ancient designs. A single light source shines from above, creating shimmer and sparkle off this free-form pendant.

Marrakesh Pendant 139650

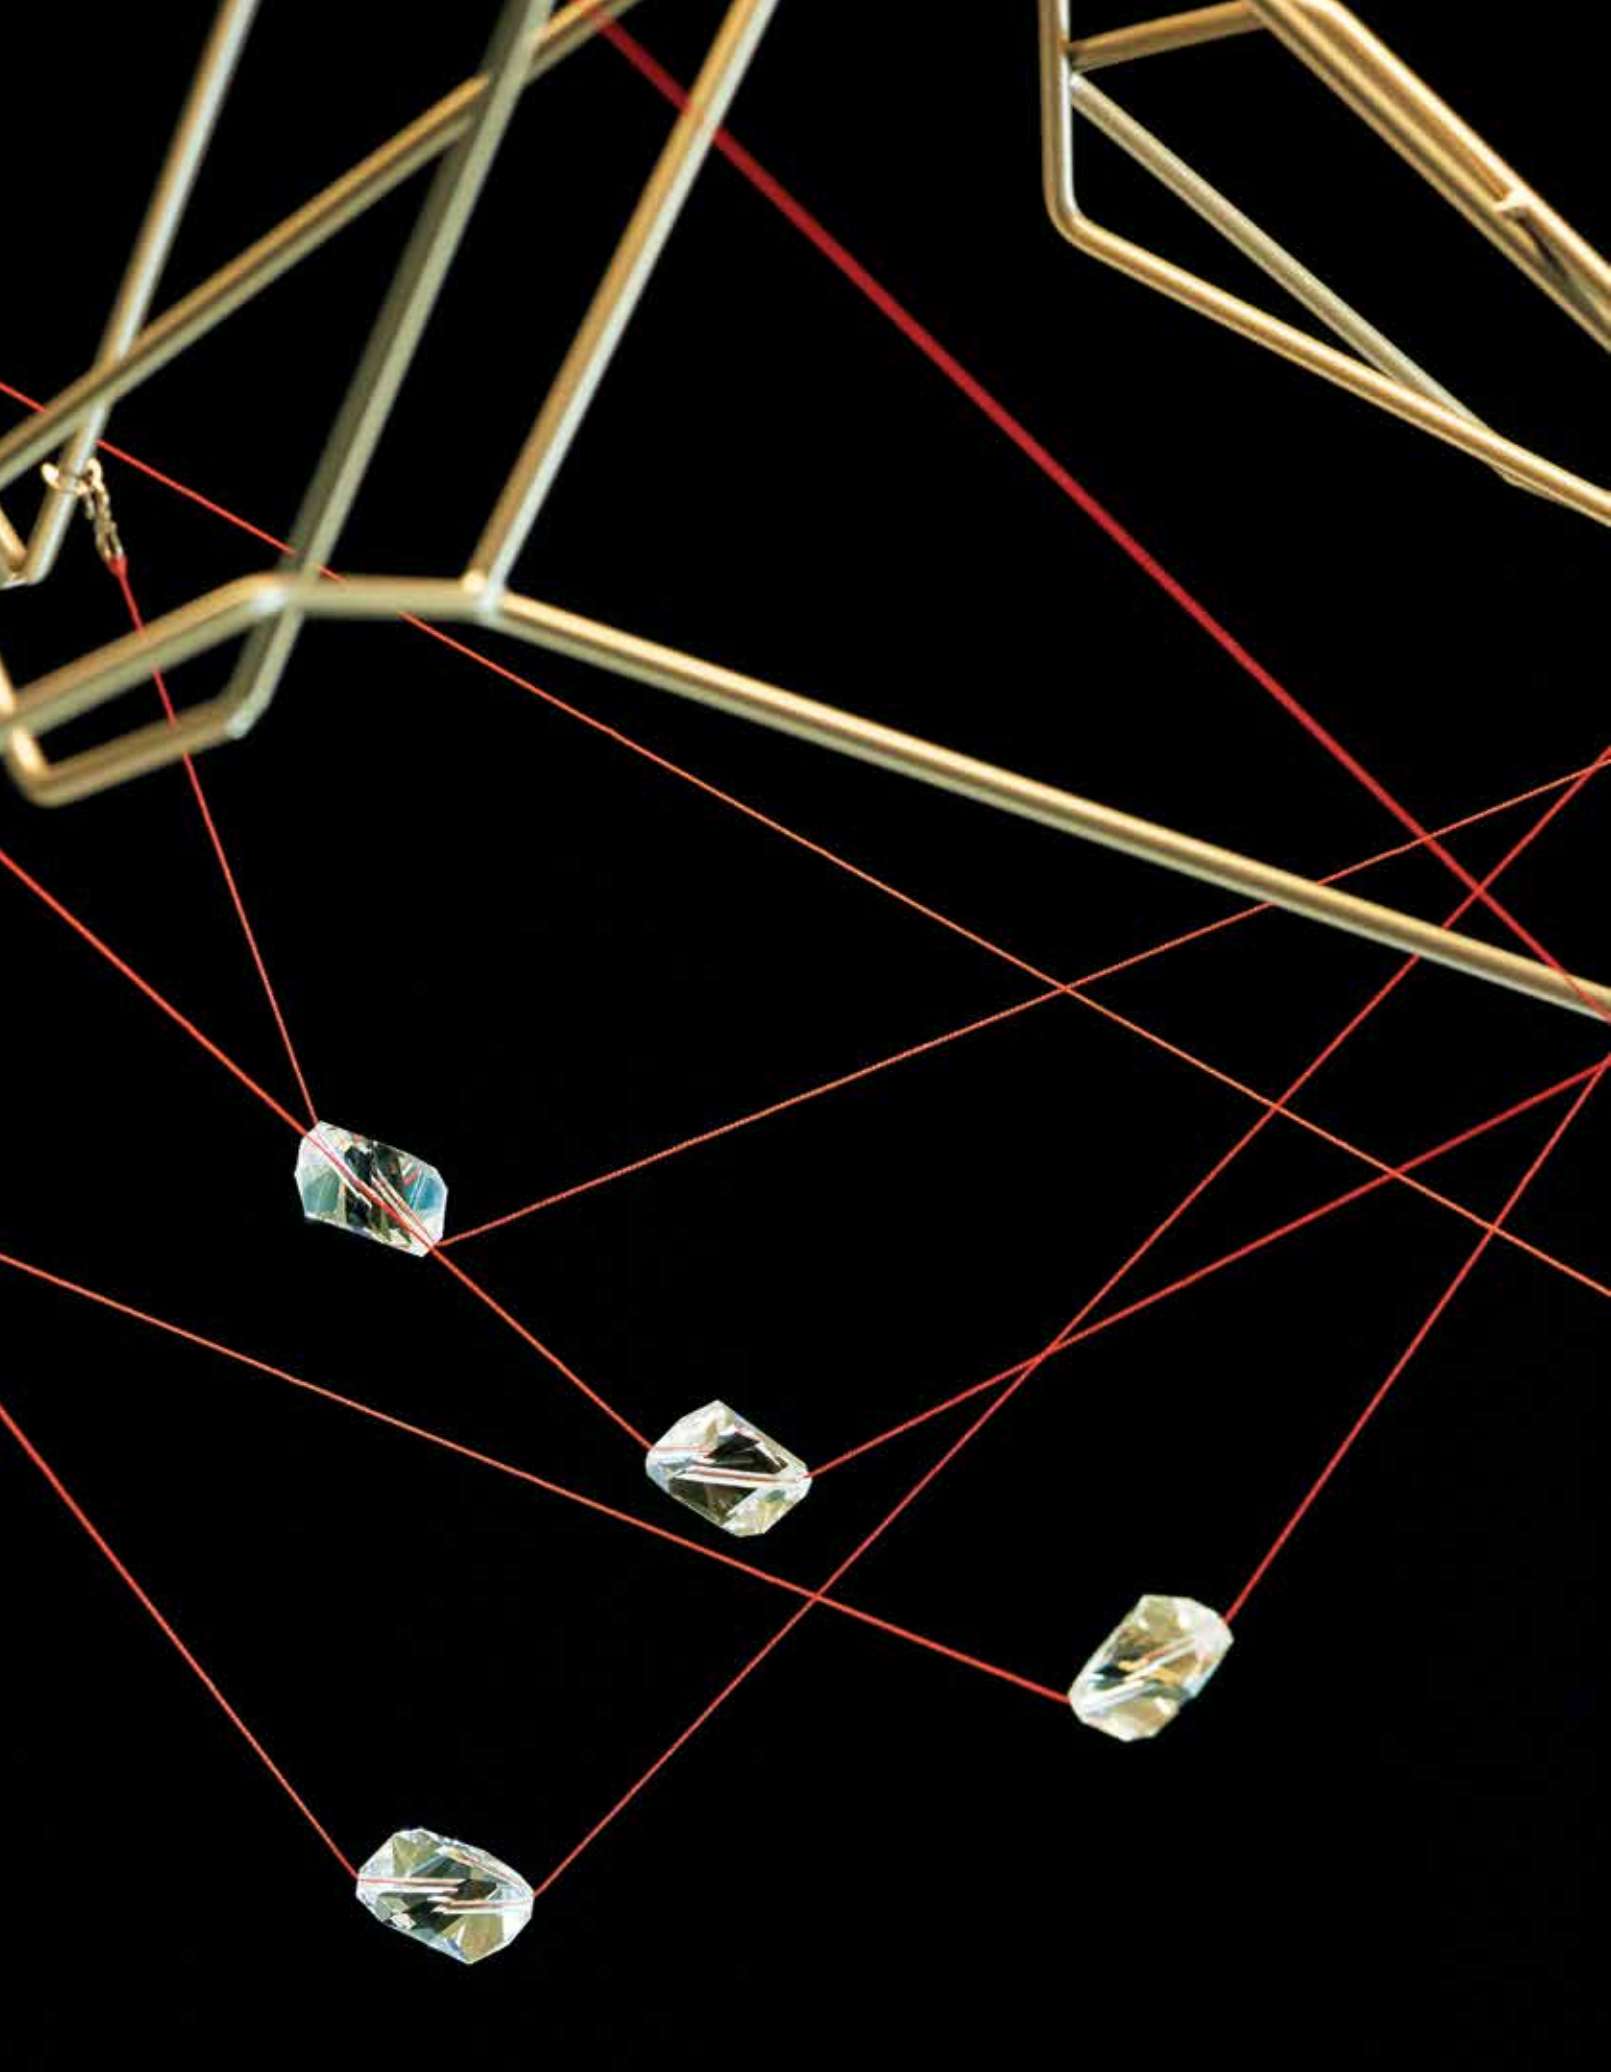

Curio Pendant 139791

CURIO

Beads of striking optical crystal intermittently placed to your liking among various shapes of pearly-white etched hand-blown glass are the hallmarks of the Curio. A laser-etched light guide passes through glass and crystal to cast a beautiful glow from your creation.

TERRA

Fine silk threads through Swarovski crystals, creating a web of shimmering light. Each strand captures a single crystal and attaches to rods of steel that have been coaxed into a serene terrestrial shape by master metalsmiths.

Translucent Finishes — Our translucent finishes show off the character and texture of the metal beneath...

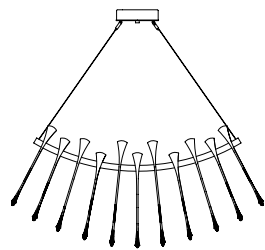

Opaque Finishes — Opaque finishes showcase steel's texture or aluminum's smooth surface...
