

LOW-VOLTAGE PENDANTS

Ecran Pendant

DESCRIPTION

Named after the French word for "screen", the pill-shaped outer glass is adorned with one of three distinctly elegant patterns—all created with real platinum and gold. The glass is hand-blown in Italy and then shipped to EGIZIA, an Italian company known the world over for its incredible silk-screening techniques, so the precious metals can be meticulously silk-screened onto glass. The beautiful patterns are brought to life as the light shines through them from an additional hand-blown inner white glass diffuser. Each pendant ships with disposable polishing cloths to ensure the metals retain their luster over time. Includes low-voltage, 50 watt halogen bi-pin lamp or 6 watt replaceable LED module and six feet of field-cuttable suspension cable.

clear-polished platinum

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).

ACCESSORIES & OPTICAL CONTROLS

Swag Hook
